Oxygen Treatment

You're not just getting a stream of oxygen it literally pushes high-tech skincare ingredients into your skin as well. The key ingredient is really the hyaluronic acid, a molecule that is found naturally in our skin (& is also the substance in most injectable fillers); it attracts & binds moisture, therefore helping skin look firmer & more hydrated. There are eight treatment options, each serum featuring a targeted blend of hyaluronic acid, botanical extracts, antioxidants, peptides and/or vitamins: Rejuvenate diminishes the appearance of fine lines & wrinkles while enhancing overall hydration. Opulence helps uneven skin tone look brighter and more luminous. Clarity calms acne while restoring moisture balance and defending against future breakouts. **WE WILL ANALYSE YOUR SKIN TO DETERMINE WHICH INFUSION WOULD SUITE YOU BEST.**

The Treatment includes:
